I.T.S.P.

International Teaching Science Project

Ecco la primissima versione del Catalogo dei lavori prodotti dal nostro Progetto fino al 31 dicembre 2017.

Per ora è in ordine di progetto e di data, anno/mese, discendente.

Dobbiamo ancora controllare che l'elenco sia corretto nei titoli e nei colori delle copertine.

Si tratta di circa 600 libretti e sarà nostro compito effettuare anche una conta esatta del tutto.

Ci occuperemo anche di fornire elenchi diversamente ordinati per facilitare le ricerche.

Saremo grati a quanti vorranno offrirci i loro suggerimenti e le correzioni necessarie.

Confidiamo che con il vostro aiuto ne scaturirà uno strumento di grande utilità.

Here is the very first version of the Catalog of works produced by our Project up to 31 December 2017.

For now it is in order of project and date, year / month, descending.

We still have to check that the list is correct in the titles and colors of the covers.

It is about 600 booklets and it will be our task to also make an exact account of the whole.

We will also deal with providing otherwise ordered lists to facilitate searches.

We will be grateful to all those who want to offer us their suggestions and corrections.

We trust that with your help it will result in a very useful tool.

ITANP Antropology

ITANP 2017/09 - Simple Guides: The Discovering of Fire	azure
